Important Announcement: Visa Application

Dear participants:

We hope all of you have received the hard copy of the invitation letter. Please apply for your visa to **the People's Republic of China (PRC)** as early as you can, because we find that some Consulate or Embassy of PRC don't accept the hard copy with the photocopy of my signature even if it is stamped by the Key Lab of Physical Chemistry of Solid Surface (PCOSS).

The participants in USA told me they don't have this problem. However, some European participants did have this problem. It takes usually three weeks even for the fast mail to be sent to overseas because of the long journey. So, once again, I ask you sincerely to start your Visa application as soon as possible. Once you meet this problem, I still have time to send you the handwritten signature.

Together with this email, please also check the guarantee letter which is also required by some participants before.

Thanks for your attention and action very much!

Best regards!

Dongping
